PROLUSION

BN Patel Institute of Paramedical and Science (Paramedical Division) was established in the year 2010 keeping the needs of the paramedical & Healthcare field as a major concern. The institute delivers the best paramedical & Healthcare education, specialized training, and placements for the bright future of the students. The institute also helps students to strengthen their theoretical knowledge through practical inputs in their concern specialization.

Further, quality education at the undergraduate, as well as postgraduate levels, is ensured through unique courses and innovative teaching methods by expert faculty at the institute. The institute within a short time has created a benchmark and created its image in India and abroad as well. The institute is affiliated with Sardar Patel University, Vallabh Vidyanagar, and the courses at the institute are approved by the Faculty of Medicine of the university. The institute is recognized by the University Grants Commission (UGC), New Delhi.

Moreover, the institute attempts to serve society through education and clinical facilities at affordable rates.

"Walkathon - Walk for sight"

What is Optometry?

Optometry is a specialised field of healthcare dedicated to the examination, diagnosis, and treatment of visual and eye-related issues. Optometrists, the professionals in this field, are essential in ensuring optimal eye health, prescribing corrective lenses, and managing various eye conditions.

Why choose Optometry at B N Patel Institute of Paramedical and Science?

- ◆ Approved by Faculty of Medicine; Affiliated to Sardar Patel University, Vallabh Vidhyanagar.
- ◆ Selecting the Optometry program at B N Patel Institute of Paramedical and Science offers several advantages.
- ◆ Notably, the presence of experienced faculty members specializing in the field ensures high-quality education. The institute boasts modern facilities, fostering an optimal learning atmosphere.
- ◆ Additionally, the curriculum is extensive, offering thorough coverage of pertinent subjects in specialty Optometry.
- ◆ Furthermore, with a primary eye care center on-site, students gain practical experience in diagnosing various eye conditions, including refractive errors and cataracts, enriching their learning journey
